Address: Karachi, Pakistan

## SUMMARY

I am a Software Engineering student with experience developing Web Applications using HTML, CSS, Bootstrap, JavaScript, React JS, and many other related frameworks and libraries.

## EDUCATION

**Bachelor of Software Engineering** | Bahria University Karachi Campus | 2021-2025

**Intermediate Pre-Engineering** | Fazaia Degree College Faisal base | 2019-2021

**Matriculation - Computer Science** | Bahria Model School Hanif SRE | 2018 – 2019

## Work Experience

### Intern Frontend Developer

Aug 2023 – Oct 2023

- Developed responsive, user-friendly interfaces using **React.js**, **Next.js**, and **TypeScript** for seamless user experiences.
- Integrated **RESTful APIs** to display dynamic data, improving performance and interactivity across the application.
- Optimized frontend performance through efficient rendering, code splitting, and best UX practices.
- Collaborated with designers and backend teams to convert Figma/UX designs into high-quality, production-ready UI.
- Managed project workflow using **Git/GitHub**, performing code reviews and maintaining clean commit history.

## PROJECTS

### Glamazon (React/Node/Python/MongoDB)

- Developed a salon management system enabling customers to book appointments and manage salon services online.
- Integrated an AI-powered hair transformation feature trained with StyleGAN2 to provide virtual hairstyle previews.
- Built the platform using React.js, Node.js, Material UI, and MongoDB for a responsive and efficient interface.
- Implemented the machine learning model in Python to process and generate realistic hair transformation results.
- Designed an intuitive UI/UX for easy navigation, seamless booking, and engaging virtual try-on experience.

### E-Commerce Website (React, Next.js, TypeScript, NextAuth, Tailwind CSS, Node.js, MongoDB, Stripe)

- Built a fully functional **e-commerce platform** enabling users to browse products, manage carts, and place online orders seamlessly.
- Developed the frontend using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**, ensuring a fast, responsive, and modern shopping experience.
- Integrated **Stripe payment gateway** for secure checkout, handling payments, invoices, and real-time transaction status.
- Designed a scalable **Node.js + MongoDB backend** to manage products, categories, orders, users, and payment workflows.
- Implemented advanced features like product filtering, search, sorting, and dynamic pagination for better UX.
- Ensured optimal performance using server-side rendering (SSR), API routes, and best practices for data fetching.
- Collaborated with stakeholders to deliver a visually appealing, brand-aligned interface with a smooth shopping flow.

## LANGUAGES, SKILLS AND CERTIFICATES

- **Languages:** English (intermediate)
- **Skills:** React, Next, Typescript, Node, C#, Python, Firebase, MongoDB, MySQL, OOP, Rest Api's, JavaScript, Tailwind CSS, Material UI, Bootstrap, CSS, HTML, Postman, Git,
- **Certifications:** Mern Stack (ES6 + React) from Hazza institute of Technology  
Web and Mobile App Development (Batch 10) From Saylani Mass Training Programme
